Secretary: Dayna Wilson

Agricultural Societies Council of New South Wales Incorporated
Participants Indemnity and Waiver

RISK WARNING

The Agricultural Societies Council of New South Wales advises that the participation, including passive participation, in events or activities at an agricultural show contains elements of risk, both obvious and inherent. The risks involved may result in property damage and/or personal injury including death.

1. I, the signatory, acknowledge, agree, and understand that participation, including passive participation, in events and activities at this, or at any show contains an element of risk of injury and I agree that I undertake any such risk voluntarily of my own free will and at my own risk.
2. I, the signatory, acknowledge, agree, and understand that the risk warning at the top of this form constitutes a 'risk warning' for the purposes of Division 5 of the *Civil Liability Act 2002 (NSW)*.
3. I, the signatory, acknowledge the risk referred to above and agree to waive any and all rights that I, or any other person claiming through me, may have against the Manning River A. & H. Society Taree Inc. in relation to any loss or injury (including death) that is suffered by me as a result of the undersigned's participation in any event held by the Manning River A. & H. Society Taree Inc.
4. The signatory must continually indemnify the Manning River A. & H. Society Taree Inc. on a full indemnity basis against any claim or proceeding that is made, threatened or commenced and any liability, loss (including consequential loss and loss of profits), damages or expense (including legal costs on a full indemnity basis) that the Manning River A. & H. Society Taree Inc. incurs or suffers, as a direct or indirect result of the participant's participation in any event held by the Manning River A. & H. Society Taree Inc .

I have read this Indemnity and Waiver form and acknowledge and agree with its contents. I have made any further enquires which I feel are necessary or desirable and fully understand the risks involved in this activity.

Name:

Address:

Indemnity Valid From/...../..... To/...../.....

Signature: Date:.....

Email:.....

Payment of Entry Fees are to be made via cheque/money order or direct deposit/transfer only, please DO NOT send cash through the mail as cash sent through the mail in 2017 went missing.

Bank: NAB
BSB: 082 856
A/C: 035508728

A/C name: Manning River Ag & Horticultural Society Taree Inc.

If paying by direct deposit/transfer, please leave your surname and 'DC' as reference for Dairy Cattle so it can be matched to your entry form.

NATIONAL CATTLE HEALTH DECLARATION

V: 02/05/18

Property Identification Code (PIC) of this property

This MUST be the PIC of the property that the stock is being moved from

--	--	--	--	--	--	--	--	--	--

Attached to accompanying NVD/Waybill No.

--	--	--	--	--	--	--	--	--	--

Biosecurity and health information

1. Has the owner stated above owned all the cattle in this consignment since birth? Y N

2. Does the property of origin have a completed on-farm biosecurity plan? Y N

3a. Have these cattle been tested for the presence of pestivirus antigen? Y N

If tested, were any cattle found to be persistently infected? Y N

3b. Have these cattle been tested for the presence of pestivirus antibody? Y N

If tested what percentage of the tested cattle were antibody positive?

4. Has the property of origin had an occurrence of clinical Johne's disease (JD) in any species in the past five years? Y N Unsure

J-BAS of (Optional)

5. On the property of origin, have cattle been co-grazed with dairy cattle? Y N Unsure

See explanatory note for advice on co-grazing with non-bovine species

6. Has the source herd had a JD test? Y N Pending

If so, which test? Check Test Sample Test Date / /

Was the result negative? Y N

7. If dairy cattle, the consignment has a Dairy Assurance Score of:

Part A (herd base score)	<input type="text"/>	Part B (calf credits)	<input type="text"/>	Part C (total Dairy Score)	<input type="text"/>
-----------------------------	----------------------	--------------------------	----------------------	-------------------------------	----------------------

8. Any other relevant health information

Treatments

Treatment type	Product	Date of treatment within last 6 months
Drench or pour-on	<input type="text"/>	<input type="text"/>
Liver fluke	<input type="text"/>	<input type="text"/>
Other treatments	<input type="text"/>	<input type="text"/>
	<input type="text"/>	<input type="text"/>

Current vaccinations for the cattle being moved (see explanatory note)

Clostridial (e.g. 5 in 1): Y Botulism: Y

Leptospira (e.g. 7 in 1): Y Bovine ephemeral fever: Y

Pestivirus: Y Tick fever: Y

JD (Silirum): Y Vibrio: Y

Other vaccinations (specify):

Declaration (see explanatory notes for further information)

I
(Full name)

(Address) (Town/suburb) (State) (Postcode)

declare that I am the owner or the person responsible for the husbandry of the cattle and that all the information in this document is true and correct. I also declare that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that I have inspected the animals and deem them to be healthy, free of signs of disease and fit to travel.

Signature* Date / /

*Only the person whose name appears above may sign this declaration, or make amendments which must be initialed

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The Cattle Health Declaration is a legal document. Please complete accurately before signing.

Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals on offer.

Some states/territories require testing or certification additional to that outlined in this document e.g. Johne's disease (JD) in WA and for Enzootic Bovine Leucosis (EBL) in Tasmania. Please check the entry requirements for any interstate movements at:

www.animalhealthaustralia.com.au/what-we-do/endemic-disease/livestock-movements

The original of this form is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

TREATMENTS & VACCINATIONS

Provide details on any cattle treatments in the last six (6) months and vaccinations within the last twelve (12) months.

Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed.

For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Silirum is given once only), you must use the manufacturer's recommendations.

At the date the declaration is made and as a result of the vaccination(s) given, the animals are considered protected from the diseases marked as treated.

QUESTION 3: PESTIVIRUS TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test. This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Contact your veterinarian for assistance.

QUESTIONS 4, 5 & 6: JOHNE'S DISEASE BEEF CATTLE

Note: JD is a notifiable disease, so it is important to answer these questions.

Occurrence of JD refers to clinical disease in the herd or on the property(s). Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The **Johne's Beef Assurance Score (J-BAS)** is a voluntary tool developed for JD risk profiling. Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools. The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see the JD in Cattle Biosecurity Checklist on the 'JD in cattle' webpage). The *National Farm Biosecurity Reference Manual - Grazing Livestock Production* provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by (pooled) faecal culture or (pooled) HT-J faecal PCR. An ELISA test is available but is not recommended and also not accepted for entry of cattle to WA.

Sample test – screening of the adult herd or a large representative sample of the adult herd by an approved test (pooled) faecal culture or (pooled) HT-J faecal PCR. See note above for ELISA test.

Grazing of non-bovine species – Buyers of cattle from this consignment may consider the grazing of other JD-susceptible species (sheep, goats, alpacas) on the source property as important to their risk-management decisions. These buyers are entitled to seek information on how you have managed disease risks for all your livestock.

QUESTION 7: JOHNE'S DISEASE DAIRY CATTLE

JD herd status information about Dairy Assurance Score calculation is available at www.dairyaustralia.com.au/bjd

DECLARATION

This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.

For more information on what is fit to travel, please see MLA's *Is it fit to load?* at <http://publications.mla.com.au/go/yzSxUWwNcYsjeJe>.

For more information on biosecurity go to www.farmbiosecurity.com.au
